

Simplifying Technology for the Real Estate Professional

May 10, 2004 - For Immediate Release

### LikeGlue Systems Launches Auto Fill Forms Technology

**Washington, MI** – LikeGlue Systems of Washington, MI has successfully demonstrated their “Auto Fill Forms Technology” and have released it for sale as another powerful module within the Likeglue Systems ‘Suite of Products’. Integrating Auto Fill Forms into a Digital Transaction Management platform has been demanded by the Real Estate Professional community and LikeGlue Systems has met the challenge - again!

LikeGlue Systems has always provided cutting-edge technology Internet Based Solutions for the real estate industry. This new “Auto Fill Forms Technology” is simply another step forward, though quite a large step. This Technology will allow LikeGlue Systems to post *‘Forms Libraries’* for easy access by their subscribers. These Forms will allow Real Estate Agents to fill in their new listing information one time and then the rest of the required Forms will ‘Auto-Populate’ from the existing data. These Forms Libraries can be MLS Forms, Association Forms, branded Brokerage Forms or any Third-Party forms. A simple one-time setup by LikeGlue Systems is all that is required.

While the benefits of Auto Fill Forms Technology are obvious within the forms and data intensive environment of real estate and mortgages, there is another major benefit of this technology. These Forms Libraries will allow real estate professionals everywhere to enjoy the luxury of single point listing data entry. The forms are editable, faxable, can be E-mailed (unless placed under LikeGlue Systems integrated SSL security) and of course, printable.

“Our Company’s focus is to make the real estate professional’s life far easier and more productive. The single-point of data entry and Auto Population of the many Forms are a long overdue toolset for the hard-working real estate agents and brokers,” commented Steven L. Eaton, Technical Director of LikeGlue Systems. Mr. Eaton further states, “This is just one of the enhancements we have made to the LikeGlue Systems platform this year. While the Forms Technology actually merits the status of a separate Program Module, we have also launched our ‘Synch to PDA’ via Outlook/LikeGlue Today recently. We are constantly listening to customers to determine what solutions should be offered next.”

LikeGlue Systems will be located in Booth #1508 at the 2004 NAR Midyear Trade Expo.

We welcome you to stop by our booth to discuss our products and services
